### Strong Young Evergreens For Lining Out

Pot Grown—Bed Grown

Extra Heavy Field Grown

#### CHOICE SPECIMEN EVERGREENS

It is very important that you read carefully here in order that you may fully understand our list:

Please note the following symbols:

- T signifies once transplanted bed grown.
- TT signifies well formed heavy grade—field grown twice transplanted in nursery rows.
- TTT signifies specimen plants field grown, three times transplanted in nursery rows.
- (B) signifies plants propagated by budding.
- (C) signifies true to name plants propagated from cuttings.
- (G) signifies plants grafted on understock of similar species.
- (L) signifies propagation by layering.
- (S) signifies plants grown from seed.
- BR signifies bare roots puddled soon as dug and roots mossed for shipment.
- B&B signifies plants dug with a solid ball of earth and securely burlapped.

**SPECIAL NOTICE:** All transplants either bed grown or field grown will be shipped with roots carefully puddled in heavy wet clay with moss packed about the roots to prevent drying in transit. We also use excelsior extensively in packing to ventilate the tops of our liners which fully insures against heating in transit. Our nursery soil is of splendid balling quality and all of our Specimen Evergreens dug with a solid ball of earth about the roots and securely burlapped should reach destination without breaking.

**(C) BIOTA ORIENTALIS AUREA NANA, Beckman's Golden Arborvitae.**

		Each	Each

30x36 in. TTT B&B .....	1.95	1.85	1.75

**(C) CUNNINGHAMIA LANCEOLATA GLAUCA, Blue Chinese Fir.**

(Because of its silvery blue foliage this new and unusual variety is much superior to the well known green Cunninghamia Lanceolata. With its compact habit of growth and beautiful coloring it makes a most pleasing appearance).

		Each	Each
		Each per 100	per 1000
2½ in. pots .....		.27	.25

**(C) CUPRESSUS FASTIGIATA WORTHIANA, Worthiana Italian Cypress.**

(A very superior strain of symmetrical narrow column Italian Cypress. Has withstood severe cold which ordinarily would kill out right, or severely injure the common types of this variety).

		Each	Each
		Each per 100	per 1000
4x6 in. T	BR .....	.20	.18
6x8 in. T	BR .....	.22	.20
8x12 in. T	BR .....	.24	.22
12x18 in. T	BR .....	.27	.25

**(C) JUNIPERUS CHINENSIS PFITZERIANA,**  
Pfitzer's Spreading Juniper.

		Each	Each
		Each	per 100 per 1000
3x4 in. T	BR .....	.12	.10
4x6 in. T	BR .....	.14	.12
6x8 in. T	BR .....	.17	.15

12x15 in. TTT B&B .....	1.35	1.25	1.15
15x18 in. TTT B&B .....	1.70	1.60	1.50

**(C) JUNIPERUS CHINENSIS PFITZERIANA**  
**NANA,** Pfitzer's Dwarf Spreading Juniper.

(We have developed this interesting specimen from sport branch of the well known Pfitzer's Juniper which originated in our own fields. Its foliage is a shade lighter green than Juniperus Pfitzeriana, its habit of growth is very compact, and distinctly dwarf. In our humble opinion this plant will rival Pfitzer's Juniper in popularity when it becomes known. Very valuable for low fore-ground groups and superior for rock plantings).

		Each	Each
		Each	per 100 per 1000
10x12 in. TTT B&B .....	1.45	1.35	1.25
12x15 in. TTT B&B .....	1.70	1.60	1.50
15x18 in. TTT B&B .....	1.95	1.85	1.75
18x24 in. TTT B&B .....	2.10	2.00	

**(C) JUNIPERUS CHINENSIS PFITZERIANA**  
**COMPACTA,** Compact Form of Pfitzer's Spreading Juniper.

(Another valuable sport of Juniperus Pfitzeriana originated in our own fields. Its dense habit of growth produces a compact full centered specimen without the heavy pruning required for Pfitzer's Juniper. Inside needles on new growth are glorious lending added beauty to its appearance).

		Each	Each
		Each	per 100 per 1000
3x4 in. T	BR .....	.12	.10
6x8 in. T	BR .....	.17	.15
2¼ in. pots .....		.20	.18
2½ in. pots .....		.22	.20
10x12 in. TTT B&B .....	1.20	1.10	1.00
12x15 in. TTT B&B .....	1.35	1.25	1.15
15x18 in. TTT B&B .....	1.70	1.60	1.50
24x30 in. TTT B&B .....	2.00	1.85	

**SPECIAL NOTICE:** We have given this marvelous sport of Juniperus Pfitzeriana careful trial in nursery row, and landscape plantings and believe it to be the best type of compact Pfitzer on the market today. It produces a strong fibrous root system and transplants readily in all grades BR and B&B and will thrive in almost any situation even under adverse conditions.

**(C) JUNIPERUS CHINENSIS FORTUNEI, Fortune's Grey-Green Pyramidal Juniper.**

(Broad, compact, pyramidal—Grey-Green foliage of irregular growth. This new and unusual variety is worthy of liberal use in every landscape planting. Its attractive foliage holds its coloring regardless of cold, heat or drought and it is resistant to disease or insect pests).

	Each	Each
	Each	per 100 per 1000
2¼ in. pots .....	.20	.22
2½ in. pots .....	.27	.25

3x4 ft. TTT B&B .....	2.20	2.10 2.00
4x5 ft. TTT B&B .....	2.75	2.50

**(C) JUNIPERUS CHINENSIS SYLVESTERIS, Sylvester Juniper.**

(Often called Reeves Juniper, a very unique pyramidal type splendidly adapted for Southern and Southwestern planting owing to the fact that it will withstand heat and dry conditions without damage or loss of coloring. But it will also withstand cold and is entirely suitable for use in colder sections of the country).

	Each	Each
	Each	per 100 per 1000
2½ in. pots .....	.27	.25
18x24 in. TTT B&B .....	1.35	1.25
24x30 in. TTT B&B .....	1.60	1.50

**(C) JUNIPERUS COMMUNIS ASHFORDI, Ashford Juniper.**

	Each	Each
	Each	per 100 per 1000
8x12 in. TTT field grown	.22	.20

**(C) JUNIPERUS COMMUNIS COLUMNARIS COMPACTA, Compact Columnar English Juniper.**

	Each	Each
	Each	per 100 per 1000
30x36 in. TTT B&B .....	1.85	1.75

4x5 ft. TTT B&B .....	2.60	2.50

**(C) JUNIPERUS COMMUNIS KIYONOI, Compact Columnar English Juniper.**

(Developes into a perfect columnar specimen without shearing).

	Each	Each
	Each	per 100 per 1000
24x30 in. TTT B&B .....	1.45	1.35
30x36 in. TTT B&B .....	1.60	1.50

**(C) JUNIPERUS EXCELSA STRICTA, Spiny Greek Juniper.**

		Each	Each
		Each	per 100 per 1000
12x15 in. TTT B&B .....	1.20	1.10	1.00
15x18 in. TTT B&B .....	1.45	1.35	1.25
18x24 in. TTT B&B .....	1.70	1.60	1.50
24x30 in. TTT B&B .....	1.95	1.85	1.75

**(C) JUNIPERUS HIBERNICA FASTIGIATA, Narrow Columnar Irish Juniper.**

(This variety makes a perfect narrow compact column without shearing. Resistant to cold, heat and drought and will thrive in almost any well drained situation where there is normal sunlight).

		Each	Each
		Each	per 100 per 1000
18x24 in. TTT B&B .....	1.30	1.20	1.10
24x30 in. TTT B&B .....	1.45	1.35	1.25
30x36 in. TTT B&B .....	1.80	1.60	1.50

**(C) JUNIPERUS JAPONICA VIRGINALIS, Virginal Juniper.**

(A semi direct form with short, dark green foliage. An outstanding Juniper with exceptional merit. This valuable Juniper can be used successfully in situations adapted for Juniperus Pfitzeriana. It is immune from the attacks by red spider and other pests. Will withstand severe drought and extreme cold temperatures).

		Each	Each
		Each	per 100 per 1000
2½ in. pots (del. Spr. 1949)		.22	.20
15x18 in. TTT B&B .....	1.45	1.35	1.25
18x24 in. TTT B&B .....	1.60	1.50	

**(G) JUNIPERUS VIRGINIANA CANNARTI, Cannarti Red Cedar.**

(Without question the very finest of all pyramidal Junipers, having very deep rich green, heavily tufted foliage, which holds its beautiful coloring throughout the year. Bears blue and silver berries, which hold on enhancing its beauty nearly all winter).

		Each	Each
		Each	per 100 per 1000
24x30 in. TTT B&B .....	2.75	2.50	
30x36 in. TTT B&B .....	3.25	3.00	
3x4 ft. TTT B&B .....	3.75	3.50	

**(G) JUNIPERUS VIRGINIANA GLAUCA, Silver red Cedar.**

(Its silvery-blue foliage which coloring holds throughout the year makes it one of the most popular of all the Pyramidal Junipers. Bears dark blue berries).

		Each	Each
		Each	per 100 per 1000
18x24 in. TTT B&B .....	2.25	2.00

**(C) ILEX CORNUTA BUFORDI, Improved Chinese Holly.**

(Very similar to Cornuta type, but its glossy foliage leaves mostly have only one, sometimes two spires. Bufordi leaves are somewhat smaller than Cornuta Femina).

	Each	Each
	Each per 100	per 1000
2¼ in. pots .....	.17	.15
2½ in. pots .....	.20	.18

**(C) ILEX CRENATA, Japanese Dwarf Holly.**

(A much branched evergreen shrub, slow growing, extremely hardy. Has small close set foliage of dark shining green and black fruits which ripen in October. Valuable to border plantings for low compact formal hedging and rockeries).

	Each	Each
	Each per 100	per 1000
2¼ in. pots (del. Spr. 1949)	.18	.15

**(C) ILEX CRENATA BULLATA CONVEXA.**

(Dwarf growing, very glossy, small leaved Ilex used in foundation plantings and rock gardens).

	Each	Each
	Each per 100	per 1000
2¼ in. pots .....	.14	.12

**(C) ILEX CRENATA ROTUNDIFOLIA, Round Leaf Japanese Holly.**

(This very hardy type of Jauanese Holly is similar to Ilex Crenata except for its larger and more rounded foliage leaves. Bears black fruit which ripens in late fall. This outstanding evergreen shrub is worthy of consideration for all group or border plantings and can be used as a specimen to decided advantage. Well adapted to shearing).

### (S) MAGNOLIA GRANDIFLORA.

(The well known Southern Magnolia. Known throughout the country as the grandest broad-leaved flowering evergreen in the Southern forests. We are reliably advised that Magnolia Grandiflora is growing satisfactorily in the Cincinnati, Ohio area. Every nurseryman located in territory where this, the most beautiful of all broadleaf evergreen trees will thrive, should grow them).

Everything in this list is well grown, well graded and we promise to ship nothing but the very best to our customers.

We do not have any agents in our employ and positively do not authorize dealers to use our name. This list is intended for the Trade Only, and should it reach anyone not entitled to Trade prices, will thank any Nurseryman, Dealer or Florist to advise us so that we may revise our mailing list accordingly.

# Terms And Conditions Of Sale

**PRICE:**

Quotations in this list cancel all previous lists and prices.

**ALL PRICES HEREIN LISTED ARE SUBJECT TO MARKET CHANGES WITHOUT NOTICE.**

To simplify listings we are quoting "Each", "Each Per 100", "Each Per 1000".

To apply the 1000 rate on BR items orders must call for not less than 25 plants of the same variety and size.

To apply the 1000 rate on B&B specimen plants orders must call for not less than ten (10) plants of the same variety and size.

To apply the 100 rate on B&B specimen plants orders must call for not less than five (5) plants of the same variety and size.

When ordering samples please remit on B&B items at the Each rate. Orders for BR plants must be in multiples of 10 as we cannot profitably handle

orders for BR plants calling for less than 10 of a variety in one grade.

#### **PACKING CHARGES:**

Are extra at cost for all SPECIMEN B&B plants. Packing will be free on all orders for bare root plants when cash accompanies the order. There will be no packing charge whatever on bulk car-load shipments or on orders when your truck calls at the nursery for the goods.

#### **CASH DISCOUNT:**

When cash accompanies the order, C. O. D. express or freight S. D. B. L. attached will be considered cash basis, provided a deposit of 25% is sent with the order, balance to be paid on delivery at destination.

#### **CHARGE ACCOUNTS:**

To customers who have established credit with us, we allow the following terms: 2% ten days: 30 days net: 6% interest per annum charged on all accounts after date of maturity.

#### **TRANSPORTATION:**

In placing orders please specify how your shipment should go forward—Railway Freight, motor freight, second class express or otherwise. If you should fail to give us this information, we will ship—without assuming any responsibility—the best way possible to serve your interests. Our responsibility ceases when goods are turned over to transportation company. All risks and costs of transportation belonging to purchaser.

#### **CLAIMS:**

It is our aim to satisfy every customer. If any plants shipped you are unsatisfactory please return them immediately upon receipt of same at our expense, and we will replace promptly or refund the full purchase price. Positively no claims will be entered unless made immediately upon receipt of goods.

#### **LIABILITY AND NONWARRANTY:**

We give no warranty, expressed or implied as to description or variety, quality, life, productiveness or any other matter of any nursery stock, seeds, bulbs or plants sold by us. The purchaser assuming all the risks and responsibility of the transportation and all risks as to life and growth. It is hereby mutually agreed and understood between the purchaser and ourselves that our total liability, should stock we deliver prove untrue to name, shall be limited upon satisfactory proof, to our replacing same in the grade originally furnished, or refunding the original purchase price. We quote for immediate acceptance, subject to prior sale, and to stenographic, typographical errors or omissions. All orders are booked subject to loss or damage from frost, hail, wind or any other unavoidable weather conditions, delays and contingencies beyond our control.

## **PLEASE REMEMBER THIS**

The prices at which our potted liners are quoted in this list includes delivery to you in New Red Neponset Paper Pots. This method of shipping protects the root system, retains moisture, and keeps the rootball intact. Furthermore should weather conditions prevent planting upon arrival you can safely unpack, water thoroughly, and hold your plants until it is possible for you to plant them out. Of course stock delivered in this manner costs you a little more money, but the insurance it buys, and the ultimate stands you obtain in your Nursery rows, are more than worth it. Trial will positively convince you.
